

Sonim Data Settings

To set up the data connection on a Sonim XP1301 or Sonim XP3300, please follow the instructions below.

1. From the main menu select Settings – Network Settings – Data Account – GPRS.
2. Once in the GPRS folder press Options then Add.
3. You then need to fill in the following fields Account name, APN, User name, Password. The details will vary for each network. Please see below for details for your specific network.

Vodafone Settings –

Account name – Vodafone
APN – wap.vodafone.co.uk
User name – wap
Password – wap

O2 Settings –

Account name – O2
APN – wap.o2.co.uk
User name – web
Password – web

Orange Settings –

Account name – Orange
APN – orangeinternet
User name – (leave blank)
Password – (leave blank)

T-Mobile Settings –

Account name – T-Mobile
APN – general.t-mobile.uk
User name – user
Password – wap

If you are using a new EE sim card, the Orange settings will usually work.
